

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ALPHABETICAL AND ANALYTICAL

C A T A L O G U E

OF THE

LIBRARY

OF THE

UNIVERSITY OF VERMONT,

BURLINGTON.

BURLINGTON :
FREE PRESS OFFICE.
1854.

PREFACE.

IN issuing a new edition of the CATALOGUE OF THE LIBRARY OF THE UNIVERSITY OF VERMONT, it seems proper to offer a few words on some points touching the History and Character of the Library, and the plan on which the Catalogue is arranged.

1. The *original Library*, which had been made up by donations of benevolent individuals and friends of the University, was mostly destroyed by fire when the college edifice was burned in 1824.

2. The *present Library*, therefore, may be regarded as having had its beginning in the year 1836, when the sum of \$10,000 was appropriated by the Corporation for the purchase of a *Library*. The Faculty of the University having been authorised to expend the money for that purpose, proceeded immediately to make up such a list of Books, in the different departments of learning, as, in their opinion, would be the best that could be had for the sum appropriated. PROF. TORREY was the Agent of the Faculty in effecting the purchases, and went to Europe the same year, for this purpose, with power to vary the list at his discretion.

The following Catalogue, although it contains many valuable books obtained by purchases and donations since, is mainly the fruit of those efforts. How far the character of the Library corresponds with what it was intended to be, the Catalogue itself will show. But it may not be improper to say, that in the judgment of many, whose opinions are entitled to weight, a better Library, on the whole, for the purposes of a College, is not to be found in the country, considering the number and cost of the books. And yet there is felt an urgent want of additions to all the departments, and it is earnestly hoped that a collection so well begun, and so good, so far as it goes, will not be suffered to remain much longer without a reasonable degree of growth and enlargement. The whole number of volumes contained in the Library, exclusive of loose Pamphlets, Maps, and Charts, is found by actual counting to amount to 8108.

3. The resources for the increase of the Library are at present confined to the following :

1. The fund of the "WHEELER LIBRARY;" yielding *forty-five dollars* annually, to be expended in the purchase of books in English Literature and History, \$45,00
2. The "STRONG FUND;" yielding *thirty dollars* annually to be expended in the purchase of Periodicals, 30,00
3. STUDENTS' FEES; expended partly in keeping the books in repair—say, 150,00
4. Books are also received by donations to an annual amount of at least 100,00

4. In the first Catalogue of this Library which was prepared with great pains and published in 1836, the books were arranged and classified *by subjects*; but the impracticability of classifying in this way, without considerable repetition, works which comprise several distinct subjects, has led to a different arrangement in the present edition. The books, as will be seen, are now arranged by the names of the Authors in alphabetical order; and an *Index of Subjects* has been appended, to facilitate its use by the Students, whose wants were chiefly had in view in its preparation.

The haste with which it has been necessary to prepare the edition for the press, has been the occasion of several errors, most of which, it is hoped, will be found corrected in the list of "Errata" at the end. That such errors are so few is chiefly due to the care of MR. TUTOR BUCKHAM, under whose critical eye the proof-sheets passed. Our acknowledgements are due also to the PUBLISHER for the handsome manner in which the work has been got up.

P.

UNIVERSITY OF VERMONT,
March 7, 1854.

ALPHABETICAL CATALOGUE.

The Asterisk () prefixed to a Title denotes that the book cannot be taken from the Library without special leave from the President.*

- ABBT, THOS. Vermischte Werke. 3 vols. in 2. 12mo. Berlin. 1772.
- ABDULLAH. Journal. 8vo. Singapura. 1838.
